

# APPP

## Anti-Political Political Party

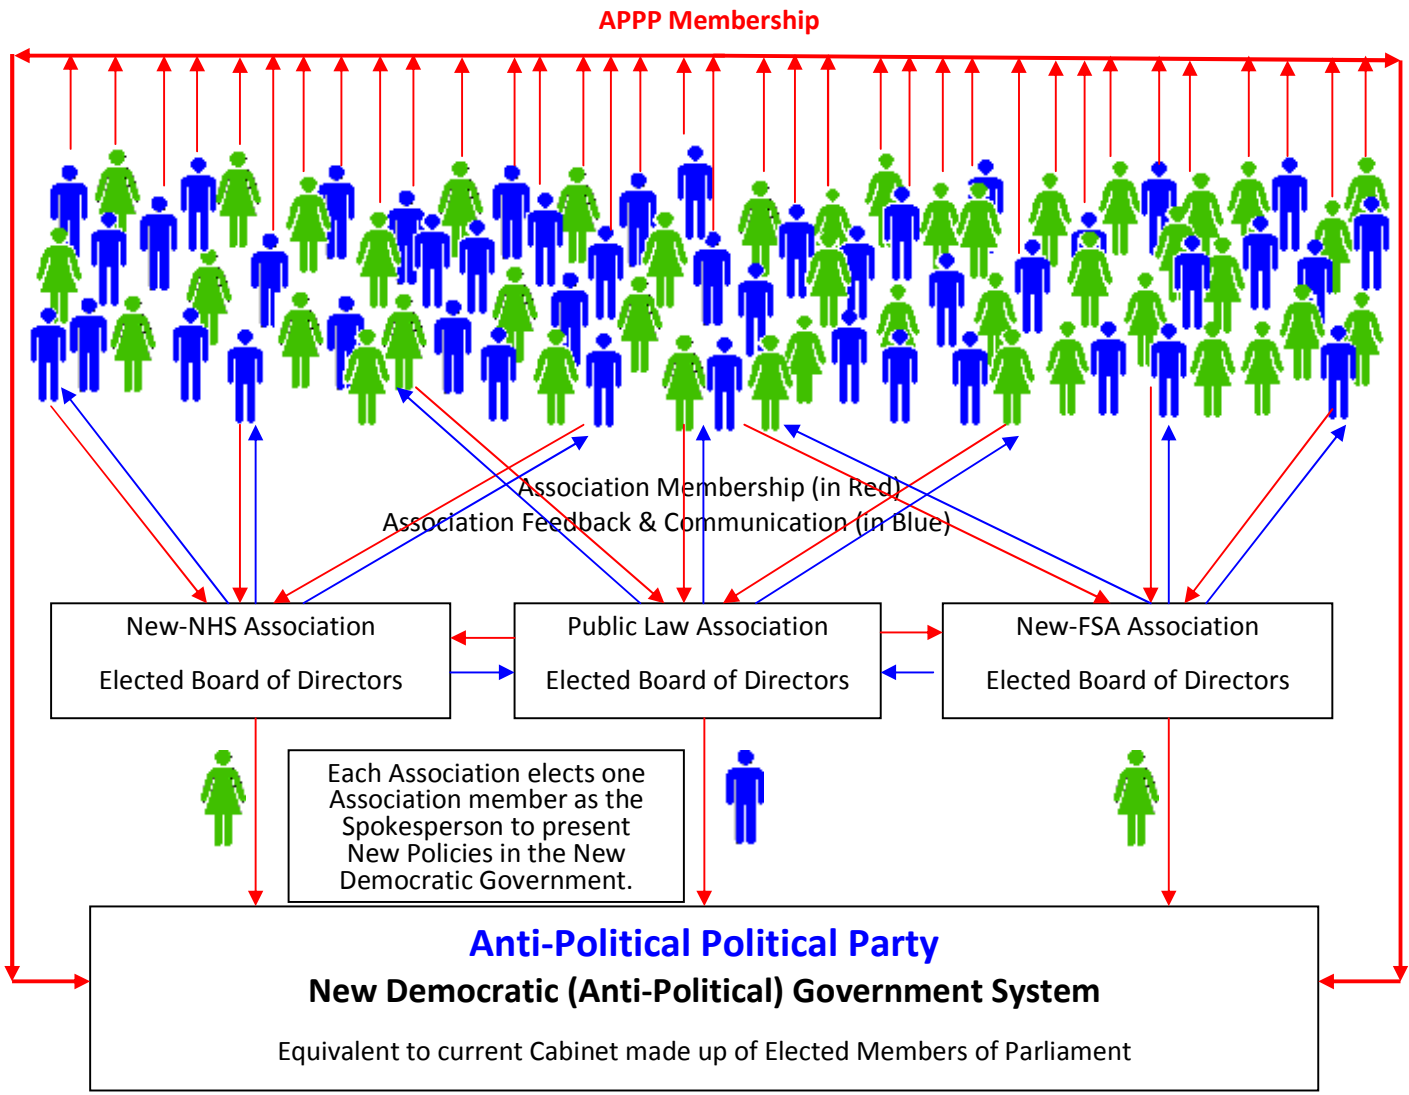

Also affectionately known as the:

## APPy Party

**ANTI-POLITICAL POLITICAL PARTY  
& ASSOCIATIONS**  
Electorate & Democratic Government  
Schematic Structure

To provide the support & 'Political Presence' required to form a new Democratic Government every APP Supporter & Association Member is required to Independently Register as an APP Member.

**The schematic diagram above represents the APP concept of  
'Government by Associations' without Politics.**

Each APP supporting Member is encouraged to join as many Associations as possible.

Many may join 3 or 4 Associations relating to their work and social interests.

More importantly, many may join an Association to address and overcome common 'politically induced' problems, such as banking or parking problems.

**Government without Politics?!?**

For many 'People' it will be difficult to imagine any form of Government without 'Politics'. The primary reason for this 'lack of imagination' is a major part of the 'Political Indoctrination' or 'Political Con' that 'only Politicians are able to 'Understand' and Run the Country and Control (or Con) the People'.

**Government by the Public through Associations:**

The proposed new form of 'Revolutionary Government' will be based the formation of Associations also known as Cooperatives.

In the current corrupt system of government, the various government departments such as Health, Law, Transport etc, are delegated as 'Ministries', typically presided over by a Member of Parliament known as a 'Minister'. Typically the 'Elected Minister' will generally have very little knowledge or qualifications to administer the particular Ministry. Usually the only qualification required is to be a Crony of the 'Leader' (or Fuhrer) aka Prime Minister,

The resultant ministerial policies usually end up as a Chaotic mess of ad hoc theories and misrepresented laws, which are generally proven to totally inadequate and inappropriate by the next parliamentary election.

In the mean time the Public (the People) suffer and become very frustrated and very angry at the level of corruption and incompetence, without any means of addressing or changing the Corrupt Government System.

## **The formation of a New Government system based on: Associations, Commonsense & Public Opinion**

The basic principle of 'Government by Associations' is for the Anti-Political Political Party to organise new and existing Associations, defined by their expertise, interest and knowledge, to appoint a 'New Anti-Political Government' 'Ministerial-Spokesman', elected by the Association members for their expertise of the Associations subject, (ie. Health, Law, Financial, Education, Energy, Environment, Transport, Media, Housing, Social Issues etc, etc).

**The Anti-Political Political Party does not have to be elected into 'Government Power' for the Associations to take control of the various 'Ministerial-Association' aspects of society.**

**Constitutionally the existing Political Government cannot prevent the Public forming into Association to take control of any aspect of their personal lives, especially if that aspect is deemed as 'In the Public Interest'.**

**Constitutionally the existing Political Government has No Power to force the Public Majority to comply with their proposals or over-rule the Public Majority's 'Freedom of Choice'.**

Through the Constitutional 'Power of Public Opinion', or more precisely; the Public Opinion of Millions of Association Members, the Public can discard and reject the policies and proposals of the current 'Con-Dem(ed)' political Government. The Association Members, through their Association Board of Trustees-Directors and 'APP Ministerial Spokesman' can form their own proposals and policies.

### **Professional Association Advice to Government.**

There are currently hundreds of Professional NGO Association that provide control over their professional member's codes of practice etc. Many of these regularly provide government ministries with professional advice and practical policies. Unfortunately, most government ministries ignore this good advice in favour of setting up a '**very Lucrative Quango**', to generally arrive at the same conclusion as the professional association advice, but costing £Millions of Tax Payers Money.

### **Political Fantasy:**

**Quango:** - Definition

#### **Quasi Autonomous Non-Government Organisation**

Is this yet another typical Political Fantasy???

How can something be 'Quasi-Autonomous???

Either something is 'Autonomous' or it's Not!

These new proposals can then be presented to the Nation through the APP (as a Registered Political Party) by the 'APP-Association Ministerial Spokesman'.

Individual members of the public will be urged to form new Associations to cover any particular issue or interest not already covered by an existing Association.

There are thousands of existing Associations in the UK, covering literally every aspect of Society and Life that will be invited to form an 'association or alliance' with the APP.
